

Physical Therapist

Diversified Rehabilitation Services is a large private organization that provides consultant services to hospitals, nursing homes, homecare agencies, school programs, adult day programs and pediatric programs. We are a well-known, local company with an excellent reputation as an employer and as a service provider.

We are looking for exceptional therapists to join our team. You will get to work in the setting of your choice and if you like variety, we have that too. In many cases, can even make your own hours as we are a “family friendly” organization. We also have our own outpatient clinic.

If you have a great personality and possess a desire to help others, we are interested in you!

Please contact avalle@rehabwny.com. You can also download and fill out an application on this site.
